=====
HUMAN-IN-THE-LOOP TEST
=====

Input: I have a Python bug in my program.
Starting graph...
[CLASSIFY] Input: I have a Python bug in my program.
[CLASSIFY] Classification: technical
[ROUTE] Classification: technical
[ROUTE] Selected route: technical
[RESPOND] Route received: technical

Graph paused for human input.
Interrupt information:
{'message': 'Human approval required before generating the final response.', 'route': 'technical', 'question': "Do you approve the 't
echnical' route? Enter APPROVE or CHANGE."}

Enter human decision (APPROVE/CHANGE): approve

Resuming graph...
[RESPOND] Route received: technical
[HUMAN] Decision: APPROVE
[RESPOND] Human approved the technical route. Final response generated successfully.

Final Result:
{'user_input': 'I have a Python bug in my program.', 'classification': 'technical', 'route': 'technical', 'response': 'Human approved
the technical route. Final response generated successfully.', 'human_decision': 'APPROVE'}

=====
FIVE INPUT ROUTING TEST
=====
```

```
C:\WINDOWS\system32\cmd. x + v

=====
FIVE INPUT ROUTING TEST
=====

--- Test 1 ---
Input: Write a Python program to calculate factorial.
[CLASSIFY] Input: Write a Python program to calculate factorial.
[CLASSIFY] Classification: technical
[ROUTE] Classification: technical
[ROUTE] Selected route: technical
Classification: technical
Route: technical
Routing verified successfully.

--- Test 2 ---
Input: Hello, good morning!
[CLASSIFY] Input: Hello, good morning!
[CLASSIFY] Classification: greeting
[ROUTE] Classification: greeting
[ROUTE] Selected route: greeting
Classification: greeting
Route: greeting
Routing verified successfully.

--- Test 3 ---
Input: I have a problem with my account.
[CLASSIFY] Input: I have a problem with my account.
[CLASSIFY] Classification: support
[ROUTE] Classification: support
[ROUTE] Selected route: support
Classification: support
Route: support
Routing verified successfully.

--- Test 4 ---
Input: What is artificial intelligence?
```

```
C:\WINDOWS\system32\cmd. x + v

--- Test 4 ---
Input: What is artificial intelligence?
[CLASSIFY] Input: What is artificial intelligence?
[CLASSIFY] Classification: general
[ROUTE] Classification: general
[ROUTE] Selected route: general
Classification: general
Route: general
Routing verified successfully.

--- Test 5 ---
Input: I found an error in my Java code.
[CLASSIFY] Input: I found an error in my Java code.
[CLASSIFY] Classification: technical
[ROUTE] Classification: technical
[ROUTE] Selected route: technical
Classification: technical
Route: technical
Routing verified successfully.
