Information about UI telemetry

MLflow collects usage data to improve the product. To confirm your preferences, please visit the settings page in the navigation sidebar. To learn more about what data is collected, please visit the [documentation](#).

Getting Started

AI Agent

Agent

Workflow

Environment

Tools

New to MLflow?

Explore MLflow's core features with pre-populated sample data including traces, evaluations, and prompts.

Start Demo

Tracing

Capture and debug LLM interactions and agent workflows.

Evaluation

Measure and compare LLM quality with built-in and custom scorers.

Prompts

Version control and manage prompts with aliases across teams.

AI Gateway

Unified API for multiple LLM providers with rate limiting.

Model Training

Track experiments with parameters, metrics, and artifacts.
